Precision Engineering & Powering the Future since 1989

Cigüeñales • коленвал • Crankshaft
Virabrequim • Kurbelwelle

We have been accredited with ISO 9001 certifications for more than a decade for continuous manufacturing excellence.

We have been a IATF16949:2016 accredited company for almost a decade for offering Precision Engineering Solutions of the Highest Standards to our customers.

We have been accredited with the ISO 14001:2015 (Environmental Management System) certification in the year 2020 owing to continuous effort & commitment to an Environmental Conscious Culture at the company. We have targeted to be a Carbon Neutral company by the year 2030 & the steps towards that goal have been initiated from 2020. A large emphasis has been put on Wind & Solar Energy amongst other renewable sources. A Blueprint has also been laid out for our very own Solar Farm to fulfill the needs of our Manufacturing Plants.

We take our management systems for occupational health and safety (OH&S) very seriously at our company. The members of our team are truly our biggest assets & to inculcate a culture for their Health & Safety is our biggest priority. We were accredited with the said certification in 2020 which is a proof of our strong emphasis on the wellbeing every member of the Balu Family proving a very safe & healthy working culture & environment.

WHO WE ARE

We have become a name symbolizing quality & excellence in the field of crankshaft manufacturing & precision machining since 1989

Our in-house capability & state of the art automotive engineering enables us to manufacture any type of crankshaft in a large range of applications namely Agriculture: Tractors, Harvesters | Heavy Duty: Trucks, Buses, Trailers | Automotive | Generators: Industrial, Standby, Home backup, Portable | Oil & Gas: Pumps & Compressors | Refrigeration: Compressor | Industrial | Off Road & On Road: Motorcycles, Carts, Jet Skis | High Performance: Racing Series | Locomotive | Marine | Aerospace.

We have developed a very extensive range of forged crankshafts for leading Original Equipment Manufacturers within India and the rest of the world & a strong aftermarket presence in over 80 countries. The ISO/TS16949:2009 accreditation of our units in 2012 by TUV Nord Cert GmbH added to our competitive edge making Balu one of the very few companies to have this accreditation in the field of manufacturing crankshafts.

Balu is now an avant-garde manufacturer of fully finished and semi-finished forged crankshafts and other Forged Components. Our incremental innovation & continuous strive to improve has awarded us by making us the only company to have the capability to manufacture components conforming to the New Emission Regulations & the New Energy Vehicles.

The manufacturing of the crankshafts is done with the latest equipments, instruments, technologies and highly skilled workforce which provide exceptional control over the entire process of manufacturing the crankshafts & strict adherence to Six Sigma & 8D disciplines. We have become the supplier of choice of major OEM's not only in India but around the world due to our technological advantage and the highest standards of quality in the industry. All the crankshafts are manufactured to exact O.E specifications and on CNC lines to ensure precision at every stage.

We have continually strived to broaden our manufacturing base and with the acquisition of the state of the art machining lines from Poland in the year 2006 and as recently as 2011 from France, our capability has expanded to produce crankshafts up to 2.5 meters in length and installed capacity has increased to 30,000 fully finished crankshafts per month.

CORE COMPETENCY

Unifying the Capability of the Organization

The Core Competencies which distinguishes us from our competitors & the pillars which have ensured the building of a strong brand worldwide are as below:

- Complete CNC manufacturing capability
- Over three decades of experience in Precision Engineering
- Diversified Product Portfolio & Applications
- Supplier of choice for OEMs
- State of the Art Manufacturing set up
- In-house tool room
- In-house Metallurgical lab
- Dedicated R&D Facility
- Strong Emphasis on New Energy Vehicles & Components
- All machining & forging operations in-house
- Well established brand worldwide
- Fully Integrated Plant providing full supply capability to its Geographically dispersed customers from concept to Product design, engineering, manufacturing, testing & validations, Highly skilled workforce with a technologically advanced plant
- In-house capability to manufacture a product from 2 Kgs to 500 Kgs & upto 3 meters long
- Supply base comprising over 25 OEMs both in India & overseas
- Aftermarket customer & distributor base in over 86 countries

History

How We Started Balu

We had a humble beginning in the year 1989 in Belgaum, India. The initial set up was for manufacturing of crankshafts for single cylinder & two cylinder with a limited workforce. Within the last decade the company is supplying to over 25 OEM companies and the aftermarket presence has since expanded to over 80 countries. In 1989, we were the first company in India to mass-produce Crankshafts suitable for Tractor, Trucks and Passenger car applications. Two decades later we have gained an excellent reputation in the world market with over 4 manufacturing facilities. The modern era of Balu upholds the reputation of durability by manufacturing Crankshafts only out of forgings & precision components conforming to the New Emission Regulations & Mobility / Energy Space.

1989	1991
The foundation of 'Balu' was laid by Mr. Prehlad Singh Chandock	First component manufactured in our factory
1995	2006
First component exported to an overseas market	Acquisition & Installation of the Ursus Manufacturing Plant from Ursus, Poland
2010	2011
Acquisition & Installation of the Thyssenkrupp Plant from L'horme, France	The company successfully achieved the milestone of building a presence in over 80 countries worldwide
2012	2014
Got accredited with ISO/TS16949:2009 accreditation from world renowned company TUV NORD	Achieved manufacturing of 1000 crankshafts in a single day
2017	2018
Became a supplier of choice to over 25 OEs spread over 5 Continents	Initiated operations at the newly acquired Forging Factory & Laid the foundation to establish a new 25 Acre factory in Belgaum, Karnataka. This was also the year we laid the foundation for Naya Energy Works, a wholly owned subsidiary with a focus on New Energy & New Mobility Solutions
2020	2020/2021
Got Accredited with the 14001:2015 & ISO 45001:2018 Certifications. We became an approved vendor to the Ordnance Factory Board (41 factories) & established a specialized manufacturing unit for the Defense Industry	We completed the transition & listing on the Stock Exchange. The Constitution of the company was changed to a Public Limited Company. As part of the new expansion plan, we laid the foundation for the new Tractor project in the region of Africa

Balu Advanced Technologies & Systems (BATS)

The Indian Government has given a great impetus to domestic factories to take part in Defense Production. A large part of the procurement program has also moved to the Private Sector with a considerable investment made by the Indian Industry to support the Indian Defense Production.

The Government has also in 2020 barred a majority of Import Procurement by the Defense Companies giving a further rise to Home Grown Companies actively participating in the Indian Defense Sector. There has been a strong focus at Balu Forge towards readiness for the needs of India as well as Global Defense Organizations. Balu Forge is already an approved vendor to a majority of the 41 Ordnance Factories in India.

A large part of the Capital Investment for the next 10 years is towards Defense Production with also key Joint Ventures/Technology Partnerships in the pipeline. The key areas planned in the coming years are Artillery, Undercarriage parts for Armored Vehicles, Weapons & Ammunition for Light & Heavy Infantry and Forged & Machined Components for the Engine Division.

There is a dedicated Unit planned for Ammunition Production in partnership with a prominent player in the Global Defense Production Mix.

Balu Forge has also secured & successfully supplied for over 5 years to Defense Forces in two prominent European Countries and executed supply as a single source to these nations. There will continue to be a strong focus on further expanding the reach & customer base amongst more Defense Organisations globally.

New Energy / Mobility Solutions

At Balu we endeavor to be ahead of the curve in the New Energy Vehicle Space with a clear emphasis & focus on Development of Efficient & Innovative Solutions for the New Energy Vehicle Sector.

We also have a Dedicated vertical, Naya with a clear focus on the Developments of the New Mobility World.

The New Era has moved from Conventional Mobility Solutions to a range of Potential Drivers for the Future may it be Hybrid/ BEV/ Hydrogen Powered Vehicles. It is imperative for an incumbent to have a well-defined strategy for the way ahead where the changing landscape will offer a large number of Opportunities.

In one of the oldest Industries in the world, the laggards are the Automotive Incumbents & due to the large Capex already incurred in the Conventional Automotive space, it is generally far more difficult to shift to the New Era that is in front of us.

We see this tipping point as the single largest opportunity available for our company where we have the right balance between the Conventional Automotive & the New Era which is in front of us

It is not only imperative for companies to stay relevant but also shift their focus from their Conventional Cash Cows to Large Growth & future stars.

The Larger drivers & key pillars are Light Weight & Efficient Solutions for the New Vehicle Architectures. Being a Company with decades of experience in Precision Machining & Metal Forming, we have used this to our advantage to offer a range of products for the New Energy Vehicles.

Product Range: Our Solution Ranges from a range from products in the through the Space of BEVs/PHEVs/Hydrogen Vehicles. The process involved conventional automotive excellence partnered with the incremental innovation to offer minimum weight, maximum load-bearing capacity, high reliability & overall cost-effectiveness.

GUARANTEE POLICY

English:- Guarantee 

We guarantee that all the goods that have been manufactured by us are free from defects in material and workmanship. We further guarantee that all the parts that are defective in material and workmanship are repairable and/or interchangeable. Any replaced parts will be our property. The obligation under this warranty does not include the refunding of these losses - Loss of profit, assembly expenses, customs charges, inland freight, all local charges etc.. We shall not be responsible for the wear out and / or the defects that arise in the transit and/or in the case that any alteration is carried out on the goods shipped by us, we will not be responsible for the defects whether it is due to the alteration or not. We shall also not be liable for the treatment of the shipped goods that is not in accordance with our regulations regarding its use. We further warranty that all our goods are interchangeable with the corresponding parts offered by the Original Equipment Manufacturer. All claims have to be submitted to us in writing within 12 months from the shipment of the goods and material may not be returned to us without our prior consent. In any case, they have to be returned to us free of charge and freight charges will only be returned if the claim is found justified after inspection of the goods by our quality control department.

Español: - Garantía 

Garantizamos que todas las mercancías que han sido fabricadas por nosotros están libres de defectos en material y mano de obra. Garantizamos más lejos que todas las piezas que son defectuosas en material y mano de obra son reparables y/o permutables. Cualquier pieza substituida será nuestra característica. La obligación bajo esta garantía no incluye consolidar de estas pérdidas - pérdida de beneficio, de costos del ensamblaje, de cargas de costumbres, de carga interior, de todas las cargas locales etc.. No seremos responsables del desgaste hacia fuera y/o los defectos que se presentan en el tránsito y/o en el caso que cualquier alteración está realizada en las mercancías enviadas por nosotros, no seremos responsables de los defectos mientras somos debido a la alteración o no . También no seremos obligados para el tratamiento de las mercancías enviadas que no está de acuerdo con nuestras regulaciones con respecto a su uso. Fomentamos la garantía que todas nuestras mercancías son permutables con las piezas correspondientes ofrecidas por el fabricante de equipos originales. Todas las demandas tienen que ser sometidas a nosotros en escribir en el plazo de 12 meses del envío de las mercancías y el material no se puede volvernos sin nuestro consentimiento previo. En cualquier caso, tienen que ser vueltales gratuitamente y las cargas de carga serán vueltas solamente si la demanda se encuentra alineada después del examen de las mercancías por nuestro departamento de calidad.

Deutsch:- Garantie 

Garan-tieren wir, daß alle Waren, die von hergestellt worden sind uns, von den Defekten Material und Kunstfertigkeit frei sind. In wir weiter garantieren, daß alle Teile, die Material und Kunstfertigkeit defekt sind, reparabel und/oder auswechselbar sind. Alle mögliche ersetzen Teile sind unsere Eigenschaft. Русский: Гарантия. 

Мы гарантируем, что все наши изделия произведены без каких-либо дефектов металла и производства. В случае обнаружения дефекта металла или производства произведется замена детали или ее ремонт. Замененные дефектные детали передут в собственность завода. Обязательства по данной гарантii не распространяются на следующие случаи – потеря дохода, расходы на установку, таможенные платы, транспортировка внутри страны покупателя, все местные выплаты и т.д. Мы также не несем ответственность за любые типы повреждений, полученные в результате транспортировки, неправильной погрузки. Мы подтверждаем, что все произведенныe заводом детали заменямы на соответствующие детали от производителя техники. Все жалобы должны быть высланы нам в течение 12 месяцев с даты погрузки, дефектные детали не могут быть высланы нам без нашего предварительного согласия. В любом случае, дефектные детали должны быть доставлены на завод бесплатно и транспортные издержки будут возвращены покупателю в том случае, если жалоба будет подтверждена после проверки изделий заводским департаментом качества.

Française:- Garantie 

Nous garantissons que toutes les marchandises qui ont été fabriquées par nous sont exemptes des défauts dans le matériel et l'exécution. Nous garantissons plus loin que toutes les pièces qui sont défectueuses dans le matériel et l'exécution sont réparables et/ou interchangeables. Toutes les pièces remplacées seront notre propriété. L'engagement sous cette garantie n'inclut pas le remboursement de ces pertes - manque à gagner, des dépenses d'assemblage, des frais de douane, le fret intérieur, tous frais locaux etc.. Nous ne serons pas responsables de l'usure dehors et/ou les défauts qui surgissent dans le passage et/ou dans le cas que n'importe quel changement est effectué sur les marchandises expédiées par nous, nous ne serons pas responsables des défauts qui surviennent du changement ou pas. Nous ne serons également pas responsables du traitement des marchandises expédiées qui n'est pas conforme à nos règlements concernant son utilisation. Nous promouvons la garantie que toutes nos marchandises sont interchangeables avec les pièces correspondantes offertes par fabricant. Toutes les réclamations doivent être soumises à nous par écrit dans les 12 mois de l'expédition des marchandises et le matériel ne peut nous être retourné sans notre assentiment préalable. De toute façon, elles doivent nous être retournées gratuitement et le coût du fret sera seulement retourné si la réclamation est trouvée justifiée après inspection des marchandises par notre service de contrôle de qualité.
